CUMULATIVE INDEX: VOLUME 12

SUBJECT INDEX

ABR (auditory brain response), 349, 462
  and auditory evoked potential, 182
  and auditory nerve survival, 350-356
  effect of digital filtering, 20-24
  and neurotologic disease, 114-118
Acoustic neuroma
  cerebrospinal fluid leak after surgery, 384-387
  diagnostic tests for small, 341-345
  hearing thresholds and brainstem response, 172-177
Acoustic reflex, 461-462
Acquired epileptic aphasia, 210-214
Age-related changes in binaural processing
  behavioral findings, 365-368
  evoked potential findings, 357-363
AIDS (acquired immunodeficiency syndrome), 49-53
Alloplastic tympanic membrane material, 329-334
Aluminum templates, 426-428
Anesthesia, 142-143
Aneurysm, 378-383
Angiography, 323-327
Angiosarcoma, 54-56
Anterior epitympanum, 11-14
Anterior inferior cerebellar artery aneurysm, 88-89
Aphasia, 210-214
Arteriovenous malformation, 89-90, 91
Articulation index, 43-44
Aspergillus otomastoiditis, 49-53
Asymmetric petrous apex penumatization, 473
Atrial myxoma, 207-209
Audiograms, 42-43
Audiology, 348-349, 459-464
Auditory brainstem response *see* ABR
Auditory evoked potential, 179-183
Auditory nerve survival, 350-356
Auditory system, electrical stimulation of, 7-10

Bacterial diarrhea, 478
Balance, 221-223
Bell's palsy, 163-168
Benign paroxysmal positional vertigo, 388-393
Berger method, 41
Bestron, 429-434
Bilateral congenital cholesteatoma, 132-134
Binaural processing, 357-368
Brainstem response, 172-177, 179-183
  see also ABR (auditory brainstem response)
Bulla, 409

Carotid aneurysm, 378-383
Cavernous hemangioma, of internal acoustic canal, 370-373
Central auditory system
  hearing handicap in elderly, 105-108
  screening test for disorders, 109-113
Central nervous system, 395, 481
Cerebellopontine angle
  lipomatous hamartoma of nerve, 374-377
  surgery, 1-6
Cerebrospinal fluid, 384-387
Cerumen, 475-476
Chinchilla, 429-434
Cholesteatoma
  bilateral congenital, 132-134
  children's, 83-87
  epidermal hyperproliferation, 93-96
  and imaging, 394-395
  primary, 472-473
  recurring, 394
Cholesterol granulomas, 471-472
Ciprofloxacin, 477-479
Click evoked otoacoustic emissions, 435-442
Cochlear echos, 435-442
Cochlear implants
  in children, 144-145
  flap necrosis, 71-75
  histopathology, 245-311
Cochlear otosclerosis, 61-63
Cochleotoxicity, 429-434
Compound action potential (CAP), 429-434
Conditioning exercise, 223
Corneocyte layer, 94
Cortisporin, 429-434
CT (computed tomography) scans, 470-474
Cystic fibrosis, 478
Cysts, 473

Deafness *see* Hearing loss
Decompression, 103
Diagnostic tests, for small acoustic neuromas, 341-345
Diarrhea, 478
Dichotic Digits Test, 109-113, 366-368
Didmoad syndrome, 57-58
Digital filtering, 20-24
Distortion product otoacoustic emissions (DPOEs), 203-206
Dizziness, 26-27
DNA gyrase, 477

Electronystagmography (ENG), 347-348, 480-483
Endolymphatic sac surgery, 184-187
Endoscopy, 46-48
Energy measurements, 420-425
Epidermal hyperproliferation, 93-96
Epileptic aphasia, 210-214
Epinephrine, 446-449
Epistaxis, 378-383
Epitympanum, 409
Estrogen, 119-121
Eustachian tube, 119-121
Evoked acoustic emissions (EAEs), 203-206
Evoked potential, 357-363
External ear, angiosarcoma of, 54-56

Facial nerve, 67-70, 234-238, 396-398, 466-469
  dilute epinephrine as aid in monitoring, 446-449
  function, 199-200
  gadolinium enhanced MRI, 163-168
  inflammatory pseudotumor, 199-202
  injury, 395
  monitoring systems, 1-6
Facial palsy, 199-202
Facial paralysis, 450-451
False ankylosis, 139-140
Fiberoptic endoscopy, 46-48
Fibrin tissue adhesive, 443-445
Fluoroquinolones, 477-479
Frequency spectrum analysis, 439-440

Gadolinium, 163-168
Gait, 220
Gerbils, 407-418
Guinea pigs, 97-99

Habituation exercise, 222
Head tilt, 420-425
Hearing aids, fitting methods, 40-44
Hearing Handicap Inventory for the Elderly (HHIE), 105-107
Hearing loss
  handicap as function of central auditory abilities in elderly, 105-108
  macrovascular sensorineural, 88-92
  in musicians, 122-127
  noise-induced, 81
  progressive hereditary, 203-206
Hearing thresholds, 172-177
Hemangioma, cavernous, 370-373
Hemotympanum, 455-458
Hepatitis A, 151-152

CUMULATIVE INDEX: VOLUME 12

Facial palsy, 199-202
Facial paralysis, 450-451
False ankylosis, 139-140
Fiberoptic endoscopy, 46-48
Fibrin tissue adhesive, 443-445
Fluoroquinolones, 477-479
Frequency spectrum analysis, 439-440

Gadolinium, 163-168
Gait, 220
Gerbils, 407-418
Guinea pigs, 97-99

Habituation exercise, 222
Head tilt, 420-425
Hearing aids, fitting methods, 40-44
Hearing Handicap Inventory for the Elderly (HHIE), 105-107
Hearing loss
  handicap as function of central auditory abilities in elderly, 105-108
  macrovascular sensorineural, 88-92
  in musicians, 122-127
  noise-induced, 81
  progressive hereditary, 203-206
Hearing thresholds, 172-177
Hemangioma, cavernous, 370-373
Hemotympanum, 455-458
Hepatitis A, 151-152

Hepatitis B, 150-153
Herpes zoster oticus, 163-168
HIV infection, 450-451
Hydroxylapatite canal wall implants, 426-428
Hyperbaric oxygen therapy, 71-75

Implant degradation, 332
Incudostapedial joint, 414, 417
Index variables, 319
Infantile myofibromatosis, 64-66
Infection
  otologic, 478
  postoperative, 394
Inflammatory disease, 11-14
Inner ear
  laser effects, 388-389
  sodium hyaluronate application, 35-39
Intact canal wall tympanoplasty (ICWT), 83-87
Internal acoustic canal, 370-373

Labyrinth, partitioning of, 388-393
Labyrinthectomy, 7-10
Labyrinthitis, 97-99
Landau-Kleffner syndrome *see* Acquired epileptic aphasia
Laser, 388-389
Late auditory evoked potentials (LAEP), 357-363, 365-368
Lesions, 227-231
Lidocaine, 448
Light microscopy, 36-37
Lipomatous hamartoma, 374-377

Macrovascular sensorineural hearing loss, 88-92
Magnetic resonance angiography (MRA), 323-327
Magnetic resonance imaging (MRI), 163-168, 323-327, 470-474
Malignant external otitis, 478-479
Malleus fixation, 417
Mastoid bowl, 403-406
Mastoidectomy reconstruction, 426-428
Menière's disease
  bilateral in surgical vs. nonsurgical patients, 336-339
  class A results, 317-322
  in Italy, 135-138
Metastatic atrial myxoma, 207-209
Metastatic vaginal carcinoma, 128-130
Middle ear
  chronic effusion, 455-458
  cleft, 452-454
  pressure, 416
Middle fossa approach, 172-177
Migraine, 25-33
Miochondrial disorder, 459-464
Mitochondrial inheritance, 463
Mongolian gerbils, 407-418
Motion sensitivity, 220-221
Movement coordination, 221-222
MRI *see* Magnetic resonance imaging
Mucocele cysts, 473
Mucus retention cysts, 473
Musicians, 122-127
Myxomas, 207-209

NAL (National Acoustic Laboratories) method, 41-42
Neuroma, acoustic, 172-177, 341-345
Neurotologic disease, 114-118, 347-349
Neurotomy, 103
Noise rejection system, 437-438
Nonprescription cerumenolytic, 475-476
Norfloxacin, 477-478
Nystagmus, 481
Odontoma, 452-454
Optokinetic nystagmus, 481
Ossicular anomalies, 132-134
Ossicular chain, 410, 414
Ossicular reconstruction, 85
Osteomyelitis, 478
Otic drops, 429-434
Otitis, external, 478-479
Otoacoustic emissions, 435-442
Otologists, 485-486
Otorrhagia, 378-383
Otosclerosis
  cochlear in children, 61-63
  effect of sodium fluoride on, 195-198
  stapedotomy, 16-19

Paralysis, facial, 450-451
Petrous apex lesions, 470-474
Petrous carotid aneurysm, 378-383
Physical therapy, 218-225
POGO (prescription of gain/output) method, 41
Polyactive copolymer, 330
Posturography, 348, 420-425
Predominant inner hair cell loss, 203-206
Primary petrous apex lesions, 470-474
Prognostic stratification, 319
Pure-tone thresholds, 461

Radical mastoidoepitympanectomy (RMET), 83-87
Recurrent facial palsy, 199-202
Refractory luetic vertigo, 184-187
Retrosigmoid approach, 101-104
Rotational testing, 348

Scalp flap, 75
Scanning electron microscopy, 37
Sensory organization, 220, 221
Skull, 323-327
Slow brainstem response, 179-183
Sodium fluoride, 195-198
Sodium hyaluronate, 35-39
Speech recognition, 461-462
Staged intact canal-wall tympanoplasty, 403-406
Stapedectomy, 443-445
Stapedotomy, 16-19
Stratum corneum, 94
Surgery
  acoustic neuroma, 384-387
  cerebellopontine angle, 1-6
  endolymphatic sac, 184-187
  false ankylosis of temporomandibular joint, 139-140
  inflammatory tumor of facial nerve, 200-201
Sway, 220
Sway energy, 219-220
Sway envelope, 219

Temporal bone
  infantile myofibromatosis, 64-66
  isolated Mongolian gerbil, 407-418
  metastatic atrial myxoma, 207-209
  and metastatic vaginal carcinoma, 128-130
  microfissures of, 169-171
Temporomandibular joint, 139-140
Tinnitus, 103, 188-194
Tissue/copolymer interface, 332-333
Tissue ingrowth, 330-332
Transplacental congenital cytomegalovirus, 97-99
Tympanic membranes
  mechanoacoustic properties of, 407-418
  new alloplastic material, 329-334
  voluntarily retractable, 215-217
Tympanometry, 415
Tympanoplasty, 403-406

University of Michigan, 226
Urinary tract infections, 478

Vascular loops, 91-92
Ventilation tube insertion, 142-143
Vertebrobasilar artery dolichoectasia, 89, 90-91
Vertigo, 103
  acute, 227-231
  benign paroxysmal positional, 388-393
  chronic, 395
  luetic, 184-187
  and migraine, 26-28
  postoperative, 391-392
Vestibular
  neuritis, 227-231
  neurotomy, 101-104
  rehabilitation, 218-225
  sensory epithelia, 38
  system, 25-33
Viral hepatitis, 150-154

Weight shift, 221
